

# Economic reports

[Help bits](#)

## Overview

This window puts together the consumption-related reports ATO Explorer offers.

Most of them result in a window, most of the times provided with a button to generate a Word document that can be printed, sent via email, or archived.

Currently there are 8 distinct management reports, and this number is likely to increase fed by our customer's suggestions.

## Operation

The screenshot shows a window titled "Economic reports" with a sub-tab "Active Reports" and a help icon. The window contains the following elements:

- A "Report" dropdown menu.
- An "Order by" section with two radio buttons: "rbtKey" (unselected) and "rbtTotal" (selected).
- A "Date end" dropdown menu showing "10/2013".
- Two buttons at the bottom: "Report" and "Exit".

Depending on the requested report, this window shows some report options:

- The end date for the information in the report
- The report lines sort order criteria

## Oil and fuel consumption reports

- Oil consumption (litres)
- Fuel consumption (litres)

These reports show consumptions per aircraft and month on fuel and oil.

## Other reports

### FBO user time

This report summarizes the time spent on ATO Explorer by each user.

**It can take several minutes to complete**, and some months may appear empty after the log for this months is deleted for maintenance reasons to save database space.

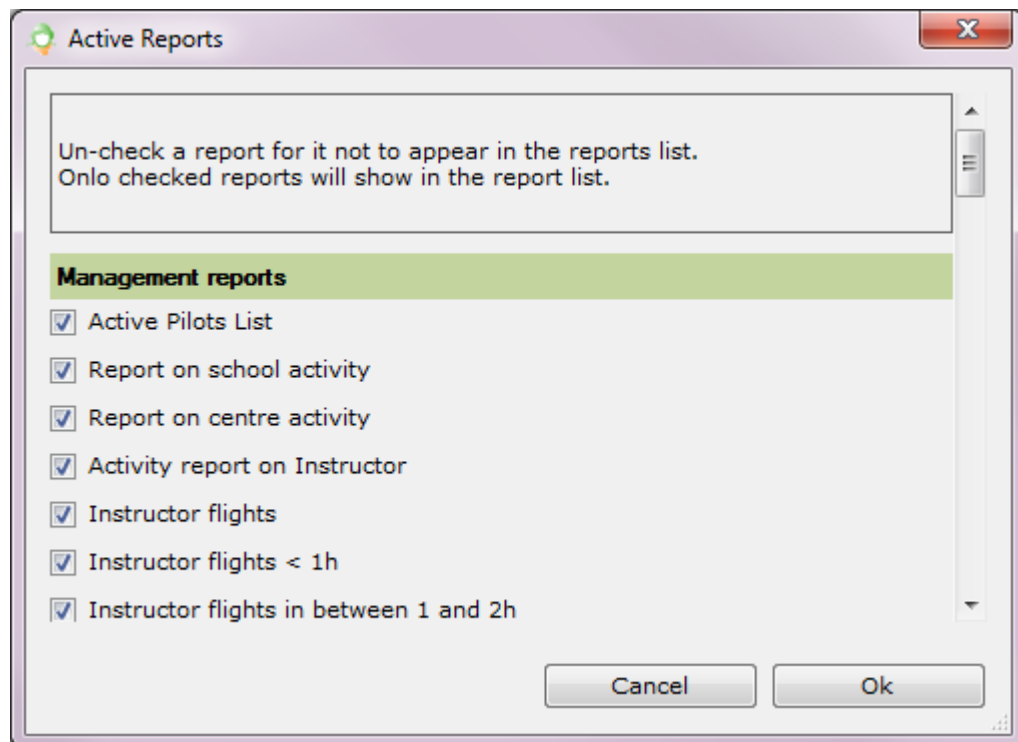

For very active clubs, this report may appear empty because the time required to build the report exceeds the maximum time allowed for the connection with the server. If this is the case and you need this report, please ask for it and we will send it by mail as soon as possible.
